

Prague, 12 May 2021

GSA succeeded by EUSPA

GSA will be succeeded by EUSPA

As of 12/05/2021 the European GNSS Agency (GSA) will be replaced and succeeded by the European Union Agency for the Space Programme (**EUSPA**) established under the Regulation of the European Parliament and of the Council establishing the space programme of the Union and the European Union Agency for the Space Programme and repealing Regulations (EU) No 912/2010, (EU) No 1285/2013, (EU) No 377/2014 and Decision 541/2014/EU (**EUSPA Regulation**).

As regards the legal status, the EUSPA is not established as a new legal entity, but as a successor of the GSA. The continuity of rights and obligations and validity of decisions taken by the GSA is ensured. For business partners as well as for staff members, the succession means, in fact, a mere change of the Agency's name, which will not affect either contracts already concluded with the Agency or rights and obligations of tenderers in the ongoing public procurements.

Prague remains the seat of the Agency.

The EUSPA regulation is available [here](#).
