Clarification Note No 1

EUSPA internal reference: WF 306295

Grant procedure:

EUSPA/GRANT/02/2024

"Galileo Timing receivers implementing CEN/CENELEC standards"

Question no. 1: Request for additional information on the nature of the call, in particular to confirm whether within the tasks set out in the scope of the project of the Call for Proposals document it is intended to (partially) cover the development of the Laboratory's capabilities to carry out the tests specified in the CEN/CLC Standard EN 16605 "Galileo Timing Receivers", as part of a potential consortium to be formed to address the full scope of the contract.

Answer no. 1: As indicated in Section 2.1 of the Call for Proposals the execution of the tests defined in the Standard is one of the main objectives of the call. The test campaign for the simulated environment shall be conducted in a National Timing Laboratory or in an accredited certification laboratories in an EU Member State or in the Joint Research Centre (JRC) facilities. Testing laboratories can be part of the consortium or can be subcontracted as testing is not included in the core task in Section 2.3 of the Call for Proposals.
