

Clarification Note #3

EUSPA internal reference: 264364

Procurement procedure: GSA/IP/23/20

Service Data Access Facility (SDAF)

Question #10: Regarding the documents required for the Request to Participate GSA/IP/23/20, and acting as the local security officer, I have to communicate to your security department the personal security clearances. As those documents are restricted according to the French regulation, could you please tell me if you are using AcidCryptofiler or ZoneCentral tools (certified by the French national security agency)? If not, could you please tell me which tools to use? (EU Restricted compliant tools are acceptable for this kind of documents).

Answer #10: Please refer to the Section 6.6 of the Tender Specifications for the documents that are required to be submitted. Submission of personal security clearances is not required for the Request to Participate.
